

EKAAN WELLNESS

One. Always here.

EKAAN CONNECT

— PREMIUM CONCIERGE —

Rs. 2,499

PER QUARTER

One number. Everything in motion.

Your dedicated concierge is a real person, available every day, on phone and WhatsApp. They know you, your family, and your situation, without you having to explain it again.

Connect is a dedicated relationship with a single concierge executive who manages everything through their own network of vetted providers, professionals, and partners.

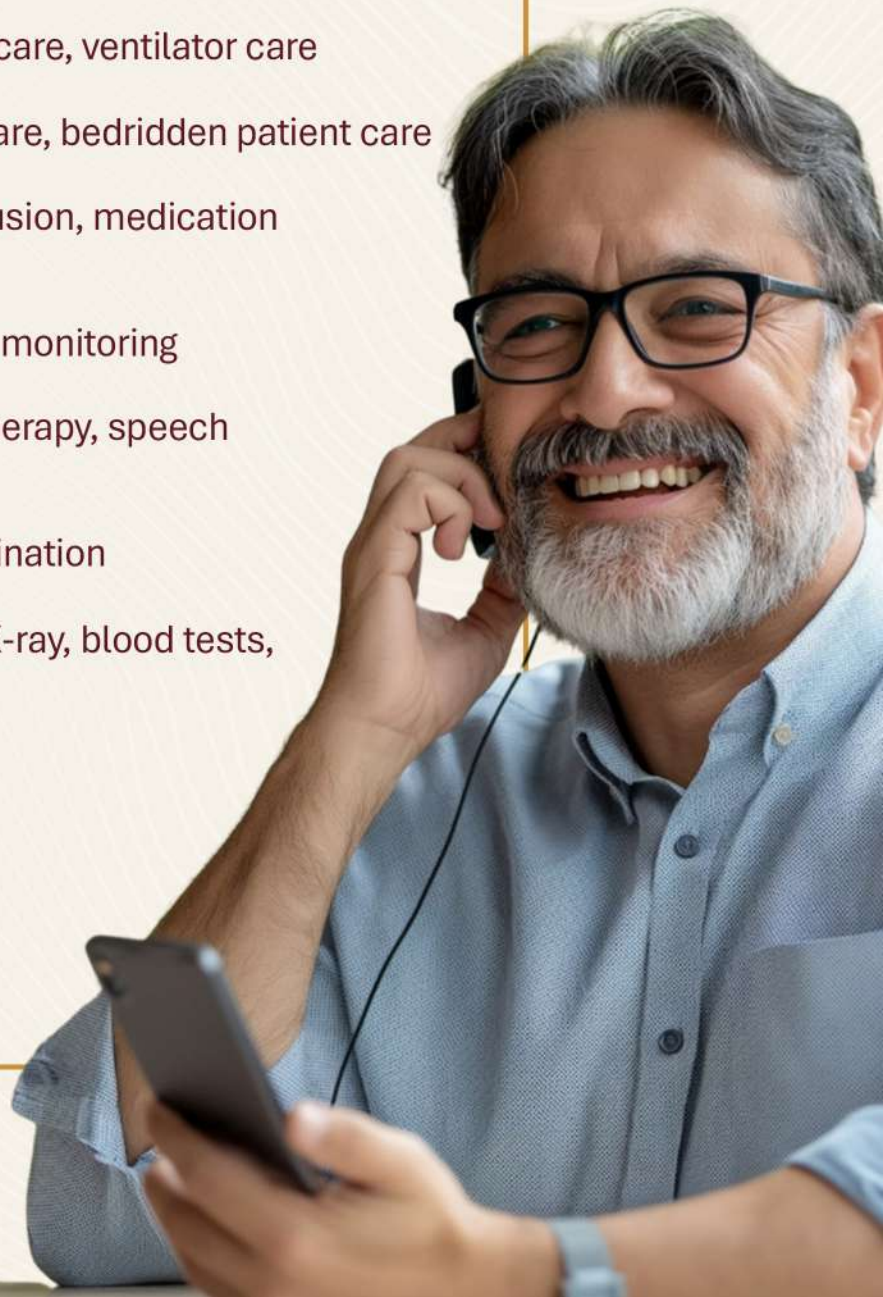

ONE CALL IS ALL IT TAKES.

WHAT ONE CALL REACHES

EKAAN WELLNESS

One. Always here.

WHY ONE NUMBER CHANGES EVERYTHING

Because coordination is the problem. Not the services.

Your parent's doctor does not call the pharmacist. The pharmacist does not know about the physiotherapist. The nurse agency does not know what the doctor said last week. Everyone knows one piece. Nobody holds the whole picture.

This is how things fall through. Not because anyone is negligent. Because nobody is responsible for the connection between all of them.

One call is all it takes.

One dedicated person who knows every provider, every instruction, every preference. Who briefs the doctor before the appointment. Who follows up after. Who makes sure the medicine arrives before it runs out. Who calls the family without being asked.

Vetted Provider Network

Every clinical, wellness, and home service provider in our network is **selected and trained specifically for senior care**, because this age group requires a different level of coordination and precision.

10+

Built on Experience

Ekaan is built by a team with **10+ years experience in senior care** and operations. Our **network, protocols, and relationships** have been built specifically for the complexity that comes with this stage of life.

One Person. Full Accountability

Your concierge does not pass you to another department. They **manage your parent's coordination end to end**. If something needs doing, they do not delegate it into a void. They follow it through.

*"If you do not see something on this list, call us anyway.
The answer is almost always yes."*
